Name:

Al Bidda Tower

Find the answers in the illustration

How tall is Al Bidda tower?

What's so unique about Al Bidda tower?

Where is Al Bidda tower located?

When was Al Bidda tower completed?

Fun Facts

There are no internal columns in the building.

The building is supported by external columns that twist with it.

The Al Bidda tower has a rounded triangular shape.

It is larger at the top than at the bottom.

Each triangular glass reflects light and water from the bay differently.

Name:

Fire Station
artist in residence

Find the answers in the illustration

When was the Fire Station completed?

What does contemporary mean?

Fun Facts

The Fire Station used to be Doha's Civil Defence building. It was used by the fire brigade until 2012.

The Fire Station was repurposed to be a contemporary art institution that supports artists through its artist in residence program.

During renovations, they kept a lot of the original building, even the fireman's pole.

Al Koot Fort

Find the answers in the illustration

In which period was Al Koot Fort first built?

What was Al Koot Fort's first purpose?

Fun Facts

Completed: 1880; rebuilt 1927; restored 1970s.

It was built as a police station, to protect the nearby Souq Waqif. It was also used as a jail.
