

# Architecture in Qatar

This book belongs to:

In celebration of Doha Capital of Islamic Culture 2021, MIA has created this booklet of special monuments in Qatar that demonstrate different Islamic architecture features.

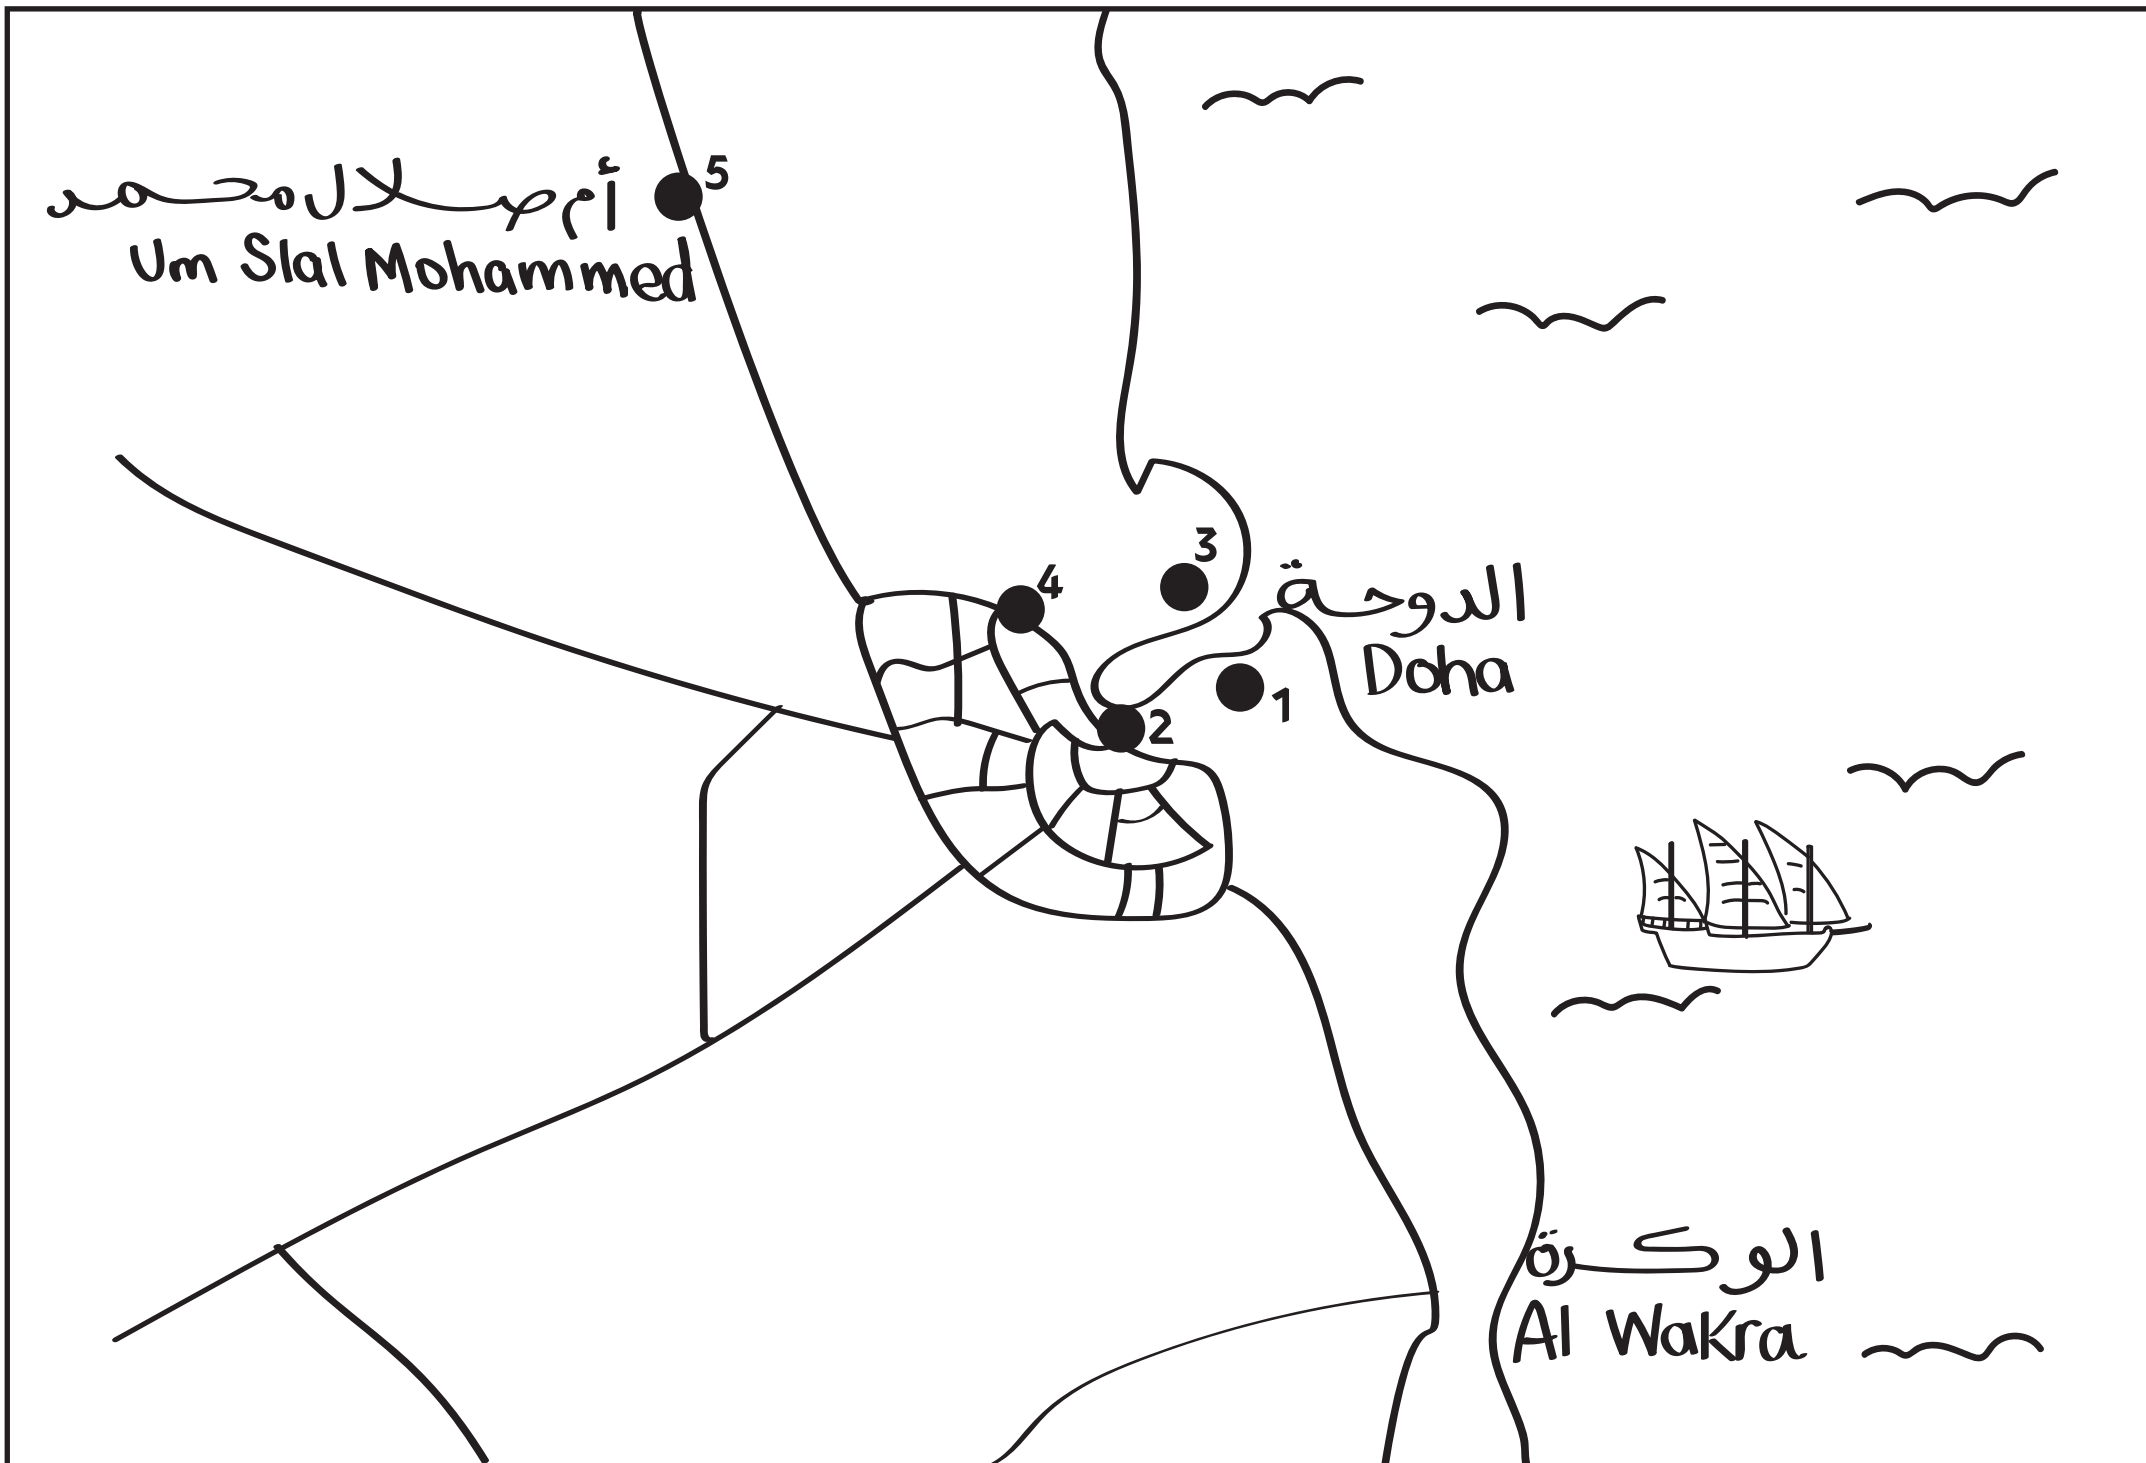

Travel around Qatar's unique buildings through our dot-to-dot! All you have to do is connect the dots and tick the correct name on each page. Why not colour your picture when you have finished?

Visit the sites and share a photograph of your completed dot-to-dot and the monument with us at #MIAQatar on our Instagram, Twitter and Facebook page.
